## Flash Fluid Effect [Latest]

● Originality: The application main features are: - 100% original - Support all modern OS (Mac OS 9-10, Mac OS X) - Support all major browsers (Safari, Firefox, IE) - Ability to customize a fast and very smooth animation with a very small published file size - The user can save the customized animation as a SWF file - The animation can be exported to all major browsers - The animation contains no scripts or objects with a framework - It is very easy to customize the effect library and add new effects - You can customize the parameters of your effect by adjusting the shader's color value. - It supports all the effect shader colors (transparency, color, alpha, e.g. 'fragmentColor', 'color', 'alpha') - You can adjust the key frame parameter by setting a color value - You can change the material setting by adjusting a material shader type, such as 'color', 'alpha', 'diffuse', 'normal' and 'specular' shader type - You can adjust the effect shader parameter by adjusting a shader type such as 'color', 'normal', 'diffuse', 'specular' and 'reflective' shader type - You can adjust a key frame parameter by setting a color value, or an effect shader parameter - You can set the reflection value by setting an effect shader parameter such as 'refraction', 'reflection', 'transparency', 'opaque' and 'reflective' shader type - You can adjust a key frame parameter by setting a color value, or the diffuse value to 0 (white)

● Other: The application supports Mac OS 9-10, Mac OS X, Windows 95/98/Me/NT/2000/XP, Safari, Firefox, IE and all major browsers. The application can be installed directly from its original installation CD. The application will read the properties located in the folder: /Applications/Flash/Content/FX\_Effect/Effect\_Library/shaders\_library/Effect\_Definition/Effects.xml. In this XML file, the key frame parameters are stored in the 'first' color field value. If the key frame is set to a different value, the new key frame parameter value will be stored to the same XML file. In the 'shader' field, the data of the effect shader parameters (when an effect shader is selected) are stored. The color of the

## What's New In?

- Process: 1. Select Effect from Library You can easily choose an effect from a library and customize it to your taste by adjusting the parameters. For example, 1. Select "Melt" effect, then you can adjust the following parameters: offset, magnification, opaque, blend mode, color mode, etc. 2. Preview and test the result before you send it to the Flash author. 5. Publish results to Flash movie (.swf) In order to get the results published in Macromedia Flash player, go to Flash Fluid Effect Options and select "Publish to Flash movie", then you can publish the results by using "FlexiServ". 6. Render Flash movie in GIF animation Go to Flash Fluid Effect Options and set "Render to GIF animation" if you are going to use the GIF animation. EXAMPLE You can see the Example Fluid Effect in our software, you can use the library to produce your own effects. Façade has been up for several hours but I have not had the patience to wait until it is finished. I think I will stop here and start my next piece. I have had enough glitter for today. Anyway here is the first pic. It is easier to show the colours individually then I cannot keep them straight in my head and make them come out at the same time. Thank you for stopping by and for your comments. xoxo, Maryanne 07-07-2010, 10:25 AM Maryanne Wow! Your colors are so fabulous, it is a pleasure to look at your creation. 07-07-2010, 05:52 PM daf I also love your colors. Hope I'm not being too critical. :-)

07-07-2010, 06:10 PM Giannaria Wonderful colouru!  
07-08-2010, 10:17 AM tampomom Beautiful colors!  
07-09-2010, 01:29 PM valgene Beautiful Façade! It looks awesome from different angles and distances.  
07-10-2010, 05:47 PM lori Beautiful colors. Congrats on getting your Façade done!
